Assumptions Used in Arriving at Fiscal Estimate <p>The Safety and Buildings Division is responsible for administering and enforcing rules relating to the design, construction, alteration or reconstruction of public swimming pools, water attractions and associated equipment. The proposed rules are based upon the latest edition of the American National Standards Institute/International Aquatics Foundation (ANSI/IAF) requirements for aquatic recreation facilities (swimming pools and water attractions) and clarify existing technical requirements. The division does not anticipate that the proposed rules will increase its workload and the workload can be accommodated with current resources.</p> <p>The proposed rules will not have a fiscal effect on other state agencies or local governments.</p> <p>The proposed rules will not increase the effect from what the current rules impose on small businesses that own or are involved in the design, construction, alteration or reconstruction of public swimming pools and water attractions.</p>			
Long-Range Fiscal Implications No long-range fiscal implications are anticipated.
